Institute™**

**Idea Home – Flooring Features**

<b>Area</b>	<b>Issue</b>	<b>Reason</b>	<b>Supplied By</b>	<b>Installed By</b>
Flooring	Luxury Vinyl Planking	Planks have a dynamic coefficient of friction (DCOF) $\geq 0.6$ , comparable with ADA requirements, which helps prevent slips and falls	Evoke	T&G Flooring
Flooring	Scratch and water resistant flooring	Prevents damage from dogs and other items that are prone to scratching the floor, and inherently water resistant.	Evoke	T&G Flooring
Flooring	Adhesively mounted planking	A better way to install luxury vinyl planking to prevent damage by wheelchairs over the lapped-in edges or from the long-term weight of cabinets	Evoke	T&G Flooring

<b>Area</b>	<b>Issue</b>	<b>Reason</b>	<b>Supplied By</b>	<b>Installed By</b>
Flooring	Flooring wall to wall	Allows easy changes in the future for different cabinets and appliances	Evoke	T&G Flooring
Flooring	No thresholds under doors in the first and second floor	Makes it easy for wheelchairs to go into rooms		
Flooring	Carpeted stair runners	More slip resistance on stairs and more appropriate for dogs
