Idea Home – Wine Room Features

Area	Issue	Reason	Supplied By	Installed By
Wine room	Room cooled by exhaust air from Hot Water Heat Pump	By using the exhaust air from the hot water heat pump in the adjacent room, there is not additional expense for cooling the wine room	LG HVAC	Four Seasons Heating
Wine room	Insulated interior walls	Walls to the utility room and to the general basement area will be insulated to keep minimize having to use additional energy to heat the basement		
Wine room	Wine racks parallel to the wall	To make it easy to see individual wine bottles		

Area	Issue	Reason	Supplied By	Installed By
Wine room	Stucco ceiling and walls	To make the room look like it has plaster walls	StoneCoat	
Wine room	Arched ceiling	To make the room look like a wine storage area		
Wine room	Plywood behind stucco walls	Using plywood allows our racks to be installed anywhere on the walls.		
Wine room	Herringbone brick vernier floor	A nice distinctive touch for the wine room
